AMERICAN STOCKS STRONG IN LONDON.

SUBSTANTIAL ADVANCE IN

Northern Pacific Was Again the Sensation in New York-Telegraph Consolidation Rumor.

Wall Street Gossip.

London (Special), 7 p. m.—The market for American Railway shares on the curb continues strong, with everything quoted at the prices, Northern Pacific common is practically unpurchasable and dealers absolutely make their own

chasable and dealers absolutely make their own prices.

Money loaned in large blocks early in the day at 6 to 7 per cent, but after noon large loans were made as high as 10 per cent. The high rate for money did not materially affect the pool movements, as the pool managers had sequred time loans a week ago.

The heaviest buying of Union Pacific was by H. P. Hollins & Co., Taylor Cutting & Co. and F. W. Savin & Co. Ladenbury Thailmann & Co. were the heaviest sellers. Their was no definite news about the property, but the story that the stock is being bought by W. K. Vanderbilt for control was generally believed by the speculators.

substantial rise in the London market to-day, largely on the covering of shorts, and

in the hour before the close Northern Pa-cific advanced on the sensational rise in New York. American stocks were strong generally. Foreign houses were generally of the epinion that London and Berlin were heavily short, particularly of Northern Pacific, Union Pacific, Eries, Southern Railway and Atchisons. The general market heavy and consols dull at 94%.

In the local market Northern Pacific was

In the local market Northern Pacific was again the sensation in the day's trading. The buying was very large, and was said to be for a strong syndicate. The preferred advanced quite considerably, and as it ranks equally with the common for dividend after 4 per cent has been paid on both issues, the possibility of a 6 per cent dividend makes it attractive. Union Pacific was by no means so strong as the London price indicated, but was well supported, although there were signs in this and St. Paul that the inside interests, which were credited with buying with a view to consolidation with Northwest, were not unwilling to

ited with buying with a view to consolidation with Northwest, were not unwilling to shake out the rather weak long interests encouraged by their recent purchases.

The activity in Missouri Pacific and Texas Pacific was taken as indicating an early amouncement of the intentions of the Southwastern consolidation pool. It is pointed out on fairly creditable authority that the advance in Northern Pacific may have been on similar lines to the recent fight in Unions. It is known that the Harriman interest was forced to pay a very high price to keep control of the latter, and it is suggested that they have retaliated by a similar move in Northern Pacific, which would account for the strength in the preferred, as it is just as good as the common for voting purposes.

The report of a consolidation between

of Western Union has undoubtedly been of a good character.

Northern Pacific retained some of its sensational rise, but eased off materially between the close, while there was considerable recession in St. Paul, Union Pacific and the Steel stocks. It was said that the large interests had the market sufficiently in control to be willing to lighten the bull account, even at the risk of a sharp recession. Money was mostly about 6 to 7 per cent, although it touched 10 per cent for a moment. The volume of trading was appreciably smaller, and commission houses generally reported some falling off in the public demand.

Pacifics, and no attention was naid to the rest of the market. Selling orders were generally for large blocks. Interests opposed to the Northern Pacific movement purposely made their own stocks weak, but without apparent insting effect. The entire street was nervous and uneasy over toe situation.

Little attention was paid in the market to the reports that different interests were seeking control of Northern Pacific. It was popularly taken for granted that the movement was a gigantic curner, pure and simple, and that the break on Friday was arranged as the first step in springing the corner. The fact that the stock is seling for above any conceivable estimate of value was taken as the strongest indication that the entire movement was directed against the shorts and nothing else. The manipulators of the deal made their money arrangements on Friday and helped make the money rates high in order to induce heavier short sales of the stock.

ARBITER SETTLED A DISPUTE.

Labor Difficulty, Referred to a Master With Great Success.

Boston, May 7.—A new method of settling a labor difficulty when the principals could not agree, adopted by Bricklayers' Union No. 3 of this city and the Mason Builders'

No. 3 of this city and the Mason Builders' Association, when they named a master to consider both sides of questions at issue and make a decision, which both parties should accept, has brought a satisfactory result.

Charles Francis Adams, second, was the judge named, and he has decided that the bricklayers shall have an advance in wages from 45 cents to 47 cents per hour, beginning May 15.

Acting in accordance with its annual custom, committees of Bricklayers' Union No. 3 and the Mason Builders' Association met in March to arrange a code of working rules and hours for 1901. The representatives of the union asked that wages be advanced to 50 cents per hour. The employes contend that business conditions would not warrant them in paying more than 45 cents. This disagreement has now been adjusted by the decision of Mr. Adams.

AS IT WAS IN ST. LOUIS.

Albany Cars Tied Up-All Sorts of Conveyances Used

he United Traction Company, which operates the street surface car lines in Albany, Troy, Cohoes, Watervilet and Ransselaer, went on a strike at 4 o'clock this morning. The car lines in the five cities are com-

The strike was wholly unexpected by the The strike was wholly unexpected by the public. The men want complete recognition of the Amalgamated Association of Street Rallway Employes, and the discharge of seven nonunion men employed by the company. They also want extra men paid the same rate per hour as regular men. A modification of the duties of conductors relative to the registration of inspectors is also requested.

The strikers, who number about 1,000, are orderly. All sorts of conveyances are being used for transit purposes.

Pope Confirms Hishop O'Connell.

Rome, May 7.—The Pope to-day confirmed the appointment of Father O'Connell, rector of the American College here, as Bishop of Portland, Me.

LINCOLN TRUST MAKES FURTHER GAINS.

TRUST AND BANK STOCKS AGAIN THE FEATURE.

United Railways Quiet, the Bonds Showing Much Weakness.

MORNING SESSION. The morning session of the Stock Ex-

change was a quiet one, but not without features. One of the chief items was the great strength and big advance in the stock of the Lincoln Trust Company. This stock has been a favorite for a week or mere and has advanced steadily under good brying, and yesterday beat all former records by bulging and closur; 6% points higher than it closed the day before at \$236 bid and \$240 asked. There was little stock for sale, not near enough to go around, and the total dealings were only 69 shares, 50 of which brought \$32 and 10 \$55. Mississippi Valley, which has been in the dumps for some time and has weakened of large-ly, was advanced materially under a good demand, which brought out sales of 50 shares at \$361 and 10 charps at \$361 50, the shares at \$39 and 10 that's at \$30,50, the flay market closing 6½ points up for the day at \$36,50 bid and \$36,00 asked. Mercantile was sainble at \$329,50 and offered at \$22,50. St. Louis was bid \$35 and hell for \$38,50, while Title and Guaranty was quoted at \$361 sellers. Union at \$39 sellers and Commonwealth at \$261 seles and \$255 bid. There was a demand for new and old Missouri at \$116 and \$129, sellers usking \$116 30 and \$120 respectively.

Bank stocks were comparatively quiet at the morning session. Sales small and price changes lew. National Black of Commerce was not quoted, nor was Fourth National and American Ex hange, but Third Na-tional was conspicuous for its weakness, it being offered as low as \$215.50 after 10 shares had sold at \$215, which was 314 points down, had sold at \$215,50 bid and \$33 asked. A small lot of 8 shares Mechanics' National sold at \$231.50 and \$232.75 was bid sater, and State National sold to the amount of 75 shares at \$180. Continental National hal \$215.25 bld and \$217.50 asked, and international was 1½ points higher at \$150.50 bid.

Aside from the weakness shown in the 4s, 5,909 of which sold at \$90.25, the market for United Rallways was practically unchanged. There was not much of a demand and stock sales were only 42 shares preferred at \$78.59. Closing prices were \$90 bid for the bonds and \$90.50 asked; \$78.25 bid for preferred and \$79 asked, and \$24.50 bid and \$24.75 asked for Transit or common stock.

A demand was had for Missouri-Edisons, A demand was had for Missouri-Edisons, but sales were confined to the bonds, two \$1,000 far selling at \$95.50 and one \$500 at \$95.75. The close was \$95.25 bid and \$95.50 asked. Common stock was bid \$19.50 and preferred was \$55.25 bid and \$57.50 arked.

AFTERNON SESSION.

The late session of the Stock Exchange was rather a slow affair, but productive of several features, one being the collapse of the Lincoln boom, and the other the strength shown by United Rallways Transit or common stock. There were not many sales made, and outside of the two above mentioned stocks few changes in current values. The chief feature of the market was the break in Lincoln Trust, which declined 2½ points during the session. Bidding started for this stock shortly after the market opened, and the first sale made was at \$20, or 4 points higher than it closed at the morning session. The very next sale was in 25 shares at \$23, and was quickly followed by a 10-share lot at \$23,50, at which more could have been bought at close. Old and new Missouri was again in demand, and sales were made in 10 shares of the first and 10 shares of the list named at \$16.50 and \$115. Mississippi Valley was again wanted, and 55 shares changed hands at \$361, which was a little cheaper than it could have been bought early in the day. Mercantile, on the other hand, soid better, 2 shares bringing \$221. St. Louis was also stronger and salable at \$117.50, with \$18.50 asked, while Commonwealth was \$256.50 bid and \$261 asked.

iment of the di, exclusive division of all new series of the market throughout the session was all new, 155, and the market throughout the session was all new and tame. There were no significant changes in values and no trades, both buying and selling offers being of an indifferent character, and some stocks quoted during the morning were not mentioned at all, ing the morning were not mentioned at all, on the morning were not mentioned at all, with a single of the morning were not mentioned at all, the store of the morning were not mentioned at all, with the store of the morning and some stocks quoted during the morning were not mentioned at all, with the store of the morning and some stocks and some stocks are not not marked \$4.7 feet at \$6 clock this morning. The stoamer is the store of the morning and will leave at noon for Nasnville. The W. W. Way 1.—The river marked \$4.7 feet at \$6 clock this morning. LOCAL MONEY MARKET.

Business Again Active and on a Large
Scale—Demand for Money Good.

The local morey market yesterday was active, and the business done by the different banks and trust companies was both active and of the trust luestay's proportions. Nothing new was developed, but as a whole the general situation was satisfactory, bank officials finding nothing to complain of. The checking and depositing was very good, and there was an active demand for money, which was in large supply and obtainable at the old rates of 5 to 5 per cent, at which figures call and time money was discounted. Pusiness with outside banks was also reported satisfactory.

The bank clearings were enormous, though not up to those of the day before, amounting to 311,8265, while the balances were \$1,52,113. The above clearings broke all records for any single day by \$1,000,000.

MISSOURI SOLDIERS' MISSION. Colonel Hall Made Adjutant General of Philippines.

Washington, May 7.—An order was issued by Secretary Root Tuesday relieving Briga-General of the Department of the Philip-Adjutant General, has been ordered from Chicago to succeed General Barry. The latter will proceed to San Francisco at once

Chicago to succeed General Barry. The latter will proceed to San Francisco at once and sail for Manila as soon as possible,
Colonel Hall was born in Missouri, and was appointed from that State to West Point September 1, 1864, graduating June 15, 1868. He became a Captain March 8, 1857. On November 6, 1893, he was appointed Major and Assistant Adjutant General, and attained the rank of Lieutenant Colonel in the same department September 16, 1897. He was promoted to the rank of Colonel April 18, 1991.

He was brevetted Lieutenant Colonel for "mest distinguished gallantry in action" near camp on White River, Colo., October 20, 1879, while a First Lieutenant. He was in command of a reconnoitering party of three men, and while going to the rescue of a brother officer who had been attacked by the Indians, was himself attacked by the result of the several times exposed himself in order to draw the fire of his assailants and locate their position, so his small party could reply with effect. Lieutenant Weir, Ordnance Department, and a scout who accompanied him were both killed by the Indians at this time.
